## Summary

---

Front-End Developer with over 2 year of experience creating responsive, user-friendly web interfaces using React.Js, Tailwind CSS, and JavaScript. Seeking to contribute to a forward-thinking team while continuing to challenge myself and grow as a developer.

## Technical Skills

---

- **Frontend Languages & Markup:** HTML, CSS, JavaScript
- **Frameworks & Libraries:** React.js, Tailwind CSS
- **Version Control & Collaboration:** Git, GitHub
- **Design & Prototyping:** Figma
- **Key Design Approach:** Mobile-first, responsive design, and building interactive UIs

## Capstone Defense

---

### Financial Management System – Barangay (Capstone Project)

**Description:** A system designed to integrate and consolidate cash collections from various sources across different barangay system.

## Projects

---

- **Training Studio (React.js)** - The Training Studio website is a modern, one-page fitness landing site designed to showcase gym programs and motivate visitors to start their fitness journey.
- **Fylo Dark Theme Landing Page (Css)** - A visually appealing dark-themed landing page emphasizing clean layout, responsive design, and strong visual hierarchy.
- **Product List with Cart (React.Js)** - Responsive product list page with a fully functional shopping cart. Users can add/remove items and view total costs dynamically.
- **Event Hub (Personal Project – React.js, Tailwind CSS)**- A smart event discovery platform—create and browse events by category, with intuitive navigation and search features.

## EDUCATION

---

**College:** Bachelor of Science in Information Technology (July 2024)
